**Heather Bastardi, RN, MSN, CPNP, Vice Chair**

### **Introduction**

The Transplant Coordinators Committee (“the Committee”, “TCC”) met via Webex on 05/22/25 to discuss the following agenda items:

The following is a summary of the Committee’s discussions.

#### **1. Inactive Waitlist Status Project Language discussion**

#### **1. Inactive Waitlist Status Project Language discussion**

**The Committee decided to vote to send their policy language to OPTN Public Comment**

#### Summary of Discussion:

A member of research staff discussed the key project metric with the Committee. Staff mentioned that creating a key metric for this project may be difficult because there is no new data collection associated with it. Members discussed that patients are typically only put into inactive status for non-extended periods for insurance and/or medical stability reasons. Member said insight into time in inactive status may be informative for future policies. Based on this feedback, the research staff decided to keep the evaluative metric of “time candidates spend in inactive status, by inactive reason and/or organ.”

Next, members discussed including language for patient notifications of “inactive to active status” into the policy. Members agreed that this was important, and some members said their programs already do this.
